## Leading the way in our Industry ...

... is our aspiration. Precision and passion are our driving forces. Each of our components reflects this. Therefore, it is a given for us to manufacture our parts with our own CNC machines and own SMD pick-and-place machines. We consistently use this approach for assembling each device, Weigh Cells, Conveyors, Checkweighers and X-ray Scanners. Everything from a single source - in perfect synchronisation.

### Centralised Manufacturing and Assembly

- CNC machining centres -> Turned and milled parts
- SMD printed circuit -> Board assembly
- Test laboratories -> Quality assurance
- Assembly and commissioning -> Weigh Cells, checkweighers and catchweighers, conveyors and X-ray scanners

### Centralised Management

- Administration
- Marketing and Sales
- After Sales Service

Everything  
from a single  
source ...

... ensures short transfers between departments and perfectly tailored solutions. As a Result creative ideas are turned into innovations for a module-based machine range.

Reliable, fast, flexible and adapted to the individual application. For the benefit of you - our customer.
